Enabling efficiency at the heart of West Africa's supply chains

WEST AFRICA
**WAREHOUSING
& LOGISTICS**
EXPO

Take the lead in driving West Africa's \$27.58 billion logistics transformation

West Africa's logistics market is gaining strong momentum, with Nigeria's sector valued at **\$10.95 billion in 2025** and projected to reach **\$15.05 billion by 2030**, driven by steady market growth.

Fuelled by rising e-commerce, expanding trade flows and ongoing infrastructure investment, Nigeria is strengthening its position within the regional supply chain landscape, creating increasing demand for warehousing, distribution and logistics solutions.

At the centre of this growth, **West Africa Warehousing & Logistics Expo**, launching in 2027, brings together suppliers, buyers and decision-makers from across the supply chain ecosystem.

Co-located with **HVACR Nigeria**, the event highlights the overlap between logistics and building systems, connecting cold chain, warehousing and facility operators with HVACR providers supporting efficient, compliant and scalable supply chain operations.

Grow your business with us

Exhibitions are a powerful platform for business growth through in person conversations. West Africa Warehousing & Logistics Expo is a fast, cost effective platform to expand your brand into West Africa's booming market.

Win more business

Access targeted marketing, high-impact networking and qualified prospects to help convert opportunities into real business.

Tap into a growing market

Enter West Africa's logistics sector with confidence, backed by insights into regulations and market dynamics.

Meet buyers who matter

Connect directly with decision-makers ready to engage, evaluate solutions and build meaningful business partnerships.

Put your brand in the spotlight

Take centre stage and present your products, solutions and innovations to a focused audience actively looking for what you offer.

Showcase your latest innovations

Logistics products and solutions

-  Cargo solutions
-  Cold chain logistics solutions
-  Cross docking & transloading
-  Freight forwarder services
-  Last mile delivery solutions
-  Maritime transport services
-  Order fulfillment
-  Road transport services
-  Third party logistics services
-  Transport & logistics
-  Ports & terminals services
-  Fleet management solutions
-  Air transport services

Warehousing products and solutions

-  Forklifts and material handling
-  Robotics and automation
-  Inventory, control system and solutions
-  Packaging, weighing, measuring, franking
-  Lifting equipment
-  Pallet racking and shelving systems
-  Production and packaging equipment
-  Production controls

HVACR

Nigeria

Redefining comfort, air quality and energy efficiency

As Nigeria's urbanization accelerates, the demand for advanced HVACR (Heating, Ventilation, Air Conditioning and Refrigeration) technologies is rapidly increasing. With evolving infrastructure and sustainability initiatives, the need for solutions that enhance air quality, preserve essential goods and improve energy efficiency has never been more critical.

To meet this demand, HVACR Nigeria brings the international HVACR industry together, providing a platform for professionals to explore innovative solutions and forge partnerships. Co-located with the West Africa Warehousing & Logistics Expo, HVACR Nigeria offers a unique opportunity to align with Nigeria's vision for sustainable growth.

Showcase products our buyers are looking for

- Air Conditioning Equipment
- Refrigeration & Cooling Systems
- Plumbing products & technologies
- Air Flow & Ventilation
